

Fast, reliable  
glaucoma  
screening

## Henson 7000

Designed to suit the constraints of the small consulting room or the mobile nature of domiciliary practice, the **portable, durable Henson 7000** brings complete flexibility to **glaucoma screening**.

- SAP **white-on-white testing**
- Single and multiple stimulus **suprathreshold screening**
- **26 and 68-point** suprathreshold test patterns (extendable in-test)
